

THE DAYSLAND DISTRICT RICH IN GRAIN AND STOCK

AN INCORPORATED TOWN ABOUT FIFTY MILES EAST OF WETASKIWIN—WELL-EQUIPPED FIRE DEPARTMENT—GRAIN GROWING, STOCK RAISING AND HAYTING ALL GIVE GOOD RETURNS AND SHOW BIG INCREASES.

Business Staff Correspondence.

Dayland, Nov. 24.—In 1910 the land in this vicinity was purchased by a company of which E. W. Day was manager, hence the name Dayland. The first building was erected here in October, 1909, but White and Orr began business here in a tent in September, 1909, at first taking their supplies over fifty miles from Wetaskiwin, but later by construction took after the steel arrived.

Now there is a regular passenger and freight service on this line east of Wetaskiwin, and when the new road-bed are completed a through freight and passenger service will be run between Edmonton and Whitecourt and Edmonton to St. Paul. Then this line will be one of the great highways of Canada.

Dayland Directory.
Dayland has a good list of business houses—three general stores, one

or a total rate of 25 mills on the dollar. There is a business tax as well as a tax on land. The following are the members of the town council: Mayor, E. W. Day; Councilmen, M. Hocking, W. A. Cuttingham, D. Davidson, E. J. Ruyk, Dr. H. C. Sherriff and Fred Lister. J. Henry, the town constable, lives in the fire hall. The fire apparatus consists of an alarm bell, a chemical engine, a gasoline fire engine, with 1,500 feet of hose; a hook and ladder wagon and two hose reels. It is a lucky outfit, for fortunately the town has had no fire worth mentioning.

A water tank near the fire hall has a capacity of 25,000 gallons, and the C.P.R. have granted the use of their rail in case of emergency. So the town practically has waterworks for fire protection. The plank sidewalk is 18 feet wide, while the concrete streets and six feet in the residential district.

ing rink. A Literary and Dramatic Club has been organized among the young people, who are planning for an interesting program for the winter.

A Good School.
E. H. Asselstine, B.A., is principal, and Miss Harriet Smith is assistant in the two-roomed frame school. There is an enrollment of about 40 pupils. The building cost \$4,000.00 and is surrounded by a large playground, where the pupils play basketball, football and baseball, but work hard between recesses. The school library contains over 100 books. The trustees are: J. G. Orr, chairman; D. Davidson, E. W. Day, W. H. Gordon and J. H. Burrows, secretary-treasurer.

Press and Post.
A. A. P. McDowell, formerly of the Bulletin, is editor and manager of the Dayland Press, a newly weekly newspaper with a well-equipped job department. Dayland also has a brass band, which does its share in advertising the town.

There are three frame churches, of which the pastors are: Roman Catholic, Rev. Father Tech; Methodist, Rev. J. N. Williams and Presbyterian, Rev. J. A. James.

General Hospital.
The Providence General Hospital, built in 1908, at a cost of \$25,000.00, has accommodations for 25 patients, and is under the management of the Sisters of Providence, who have a resident and medical superintendent. Patients come from as far east as Har-

old, barley and flax also an abundance of potatoes and garden vegetables. Wild berries such as raspberries, gooseberries, Saskatoon cherries, currants and wild strawberries were fairly plentiful. Small mammals and birds are also numerous. Three steam and one gasoline plowing outfit are reported to have

operated in the Dayland district to the past season. The total number of horses and oxen engaged in breaking would be hard to calculate, but it is believed that at least 100,000 lbs. of the land of the district is being broken up. It is true that the development and big bulk of the grain already at Dayland is a fraction of that at the future, when all the land is cultivated.

Fire Trap is Suspected.
Hamil, Nov. 24.—The connection with the death of Thomas E. Cain, who was found lying in the Grand Trunk tracks last night, the police have a suspicion that he was foul play or the nature of his injuries caused it to be believed that they were the result of foul play. A statement was made from him by a train. An inquest will be held.

Snufftrappers Go to Jail.
London, Nov. 24.—Premier Murray and his colleagues in the cabinet were charged with assault and wilful destruction of property, as the result of their rioting during the last few days, were found guilty in the House of Commons. They were sentenced to pay fines of ten to twenty pounds or a month in jail. All the prisoners cleared in an hour.

Blood-Poisoning from Cut Finger.
Serious Condition Relieved by Zamb-Thuk.
Mr. James Davey, of 715 Elliot Avenue, Winnipeg, says: "A few months since I was cured of a poisoned finger through the timely use of Zamb-Thuk. It cut a deep gash across the knuckle on the first finger of the right hand. In opening a lobster I was injured. I suffered at the time with the soreness and pain, but had no idea it would become a serious wound. However, in about two days it then healed and the wound was greatly relieved. As my whole hand and arm to the elbow became inflamed, and the wound was discolored, showing signs of blood-poisoning. The pain was dreadful and I was forced to leave off my work and go home."

"The wound on the knuckle had been poisoned through the dust and dirt about the finger. I then decided to start the Zamb-Thuk treatment and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by the next day there was a great improvement. In a week's time, through perseverance with Zamb-Thuk, the complete cure was brought about."

"Scars of similar cases could be avoided, and the worst precaution is to keep a box of Zamb-Thuk handy and apply it immediately on a cut, burn, or bruise is assured."

Zamb-Thuk will also be found a sure cure for cold sores, chapped hands, red nose, lice, scabies, blood-poisoning, various skin eruptions, ringworm, inflamed patches, babies' eruptions, and all other skin diseases, burns, bruises and skin injuries generally. All druggists and stores sell it 40c. box, or post free from Zamb-Thuk Co., Toronto, upon receipt of notice.

EDISON.

Bulletin News Service.
Edison, N.Y., Nov. 24.—Edison celebrated his first anniversary on November 15th. Most all of the members' wives were present. An enjoyable time was spent. Dancing lasted until midnight and then a three-course supper was re-laid. Mr. William Harrison, president of the Edison Society, followed by a hearty cheer by the Modern Woodmen of Edision. Mr. Jack Taylor, of Copley, furnished the music.

Mr. Arthur Bates has returned to Edision, after being away all summer. He will likely spend the winter with his brother, Morton J. Bates. Mr. and Mrs. L. S. Armstrong, also John Edision and Mrs. Tompkins, were in Edision last week.

Mr. Mack Granger took W. J. Baldwin and wife to Edision, where they will leave for California in a short time.

Mr. E. C. Baldwin made a trip to Philadelphia, also to the Landing trail last week.

Mr. Geo. Deffenbaugh has his new post office building nearly completed. Mr. H. A. West has left for the north to prepare his camp for his winter's trapping.

Walter Woodard is thrashing in the Pembina district.

Mr. William and Achille Hoyle, of Edision, have purchased a new J. I. Case threshing outfit, including a tractor, horse-power engine, and a feeder and blower. Hoyle Brothers have a new steam engine for threshing in the Mortville district.

When finished they will ship their engine to Wolf Creek, where they have a number of feet of lumber to saw. They will return in the spring to their farm at Edision.

Many fat cattle and hogs have been sold in the district this year. The Methodist church opening took place on October 18th, a large crowd being present.

Michael Altun and wife are preparing for a trip to Ontario this winter. Mrs. W. Tracy, of Edision, has been visiting her daughter, Mrs. W. H. Overton, at Indianapolis.

INDIAN.

Bulletin News Service.
Mrs. Constantine, one of the town's oldest residents, has gone to Redwood to reside with her daughter, Mrs. Clements.

D. Artell has been shipping quite a number of cattle during the week. The box social and banquet at Masterville, given by the Ladies' Aid of Bethel church, was an unqualified success.

J. Walford, of Oida, has opened up a pool room and bar at his barbership in connection.

S. Boyd, 3 1/2 miles east of Bowden, intends going to the coast, and is selling off all his horses, cattle and household effects on Wednesday, the 29th inst.

R. Butler, of Bowden, will know that for many years has disposed of his general store to J. Howard and E. Murphy, who will come into possession at the beginning of the year.

Jak Hayward, of Bowden, has started a new business. He has purchased some good roadsters and started a new business.

Huskins, late of Innisfail, and now of the Victoria Hotel, Olds, has been dismissed to lose his valuable paper.

In view of the large number of settlers expected next spring, Trochu is starting a publicity campaign. Mr. and Mrs. B. P. Trochu, from Ireland, were in Trochu looking out for land and D. Stern has disposed of his farm there.

HOW COAL IS MINED NEAR DAYLAND.

The young people of Lone Pine have organized meetings every week. Next Wednesday's subject is "War Against the Saloon."

Flour Mill For Calgary.
The Calgary, Nov. 24.—Looking for logical points at which to establish branch plants of the Ogilvie Milling company, W. W. Thompson and W. A. Black, two of the executive heads of the milling company, reached Calgary on a special train shortly after 12:30 p.m. yesterday. With them was Dr. Simpson, a well-known Winnipegger, and the party came as the guests of General Manager Bury, of the C. P. R., district

full general superintendent of the party came west today.

It is eleven years since Mr. Thompson was in Calgary, and he is greatly struck with the changed appearance of the town. "When I was here before Calgary was a place of only a few thousands, and it was that it might," he said.

The present trip is purely a business one, and a big plant will undoubtedly be erected here for the Ogilvie company, as Mr. Thompson mentioned together with a few good intermediate towns, where the place where they needed plants.

In speaking of the conditions Mr. Thompson said that he had heard of a hundred million of bushels less grain than they did last year, and that this had curtailed operations in the mill. He would also affect prices later on, but as yet had no idea just how much or how little prices would be affected. The party came west today.

mechanical department of the C.P.R., is also with the party.

That the Ogilvie plants will eventually come to Calgary can easily be gathered from the remarks made to just before he went on a tour of the mill. He said that the Ogilvie automobile this afternoon.

"We are of course looking for logical centres," he said in answer to a question, "but we have not made up our minds as yet. We have no announcements to make."

"Well, Calgary is a logical centre," suggested a newspaperman, and Mr. Thompson thoughtfully replied: "Yes, Calgary, Winnipeg and Vancouver are all good logical centres. Calgary is especially has a great future before it. Mr. and Mrs. B. P. Trochu, from Ireland, were in Trochu looking out for land and D. Stern has disposed of his farm there."

"Then you will locate here," he was asked, but again he replied that he was not sure.

BENNETT WORSTED IN RAILWAY BILL FIGHT

Bitter Struggle Between Alberta Central and Canadian Northern Companies—Amendments Submitted by Bennett Are Voted Out.

The bitter fight between the Alberta Central and the Canadian Northern railways with reference to their lines west from near Red Deer to Rocky Mountain House on the Saskatchewan, begun before the railway committee Wednesday, was continued yesterday in committee of the whole.

The bill to incorporate the Canadian Northern Railway is being conducted through the Legislature by J. K. Cornwall and its chief opponent is H. B. Bennett, who has brought all his railway knowledge to his aid in the fight. But he was badly worsted yesterday.

The bill has two provisions, one to build a line from Edmonton north to Ft. McMurray through the Peace River country, and the other west from the C. & N. line near Red Deer to Rocky Mountain House. It is to the latter branch running to the coal fields of the Brazena and closely paralleling the Alberta Central that the objection is being especially made. The bill differs materially to the model bill which the Legislature adopted several years ago and this is the point of attack by Mr. Bennett. Right of the fifteen clauses

were considered yesterday and to every one Mr. Bennett moved an amendment, but all were lost.

Take Your Medicine.

"I have fought this legislation last year," said the Calgary member, "and I don't propose to mutilate myself. I want to be consistent."

"Why don't you take your medicine as I do?" taunted the member for Peace River (Mr. Cornwall).

"You're looking for another dose of a different kind now," was the interjection of Mr. Hooley and the laughter of the members.

The second clause specified that the head office should be at Edmonton or at some other place in Alberta. Bennett urged it should be at Edmonton too alone, but a majority was defeated.

Clause four fixed the capital stock at six million and Mr. Bennett moved an amendment that it should be five million. "It is just six millions of watered stock," he said. "We have no information as to the mileage overcapitalization and overblowing are the greatest objections to many of these railway charters. It is simply water."

When clause 6 was reached Mr. Bennett and Mr. Hooley clashed. The former moved that the clause of the model bill be substituted.

"I remember a speech from the honorable member for Sturgeon when he strongly criticized a railway measure last year because it did not conform to the model bill."

"I beg pardon of the honorable member, but that is not correct," responded Mr. Hooley.

"Well, I thought you were trying to forget it," was the rejoinder.

When the clause fixing the brancher was reached J. L. Cote said laughter must be at an amendment he had just specifying a line from Edmonton northwest of Lac La Poudre to Fort McMurray. Mr. Michener moved that the line to Rocky Mountain House be built as far away as possible from the Alberta Central and B. T. Telford moved that the line go north of Snake lake as the Alberta Central stated that it be located.

These amendments were under discussion when the committee rose.

WHERE WILL THEY SLEEP?

Western Tariff Delegation to Ottawa Must Sleep Four in a Bed.

Ottawa, Nov. 24.—The Evening Free Press says: "When the large delegation of farmers from the West roll into Ottawa on December 15th on their special train, to ask the government for a lower tariff, where are they to find sleeping accommodation? The city hotel men themselves confess it is a problem. 'We have all the business now that we can handle, and it gets me where we are going to put these farmers,' remarked one hotelkeeper.

"Looks as if it would pay us to enclose a few halls and equip them with cots," mused another.

To discuss and means, various hotel proprietors are to get together and frame up some scheme of placing the farmers about four in a bed, but some may have to sleep on billiard tables.

WANDER GETS THREE YEARS.

Assisted Male and Female in Escape From Asylum.

Hamilton, Nov. 24.—Monthly Tramp-ster was found guilty today by Judge Snider of assisting in the escape of Mair and Taggart from the local asylum for the insane, and sentenced to three years in the penitentiary.

Albert Dow, of Toronto, was convicted of passing counterfeit money, and was sent down for twenty-three months.

DEBATE DEMANDS OF BRAZILIAN MUTINEERS

Government May Concede What Is Asked For—British Minister Notices Brazilian Authorities That French Subjects May Be Endangered by Attempt to Destroy Vessels of Mutineers.

Rio de Janeiro, Nov. 24.—The mutiny in the Brazilian navy, which broke out the night of November 22nd on board the battleship Minas Geraes, and subsequently extended to other vessels of the fleet, is in a critical stage tonight.

The mutineers today sent to the government a strongly worded ultimatum demanding an increase in pay, and the abolishment of corporal punishment and several other unpopular regulations.

The senate, which had been called in extraordinary session to consider the situation, voted unanimously in favor of an amnesty to the rebels, but the chamber, after discussing the matter most of the day, adjourned without making final action.

Battleship Opposite Palace.

Tonight the battleship Sao Paulo and the cruiser Bahia withdrew from the harbor, but the battleship Minas Geraes took up a position opposite the government palace. During the course of the day an effort was made through Deputy Cravinho to induce the mutineers to surrender, but they refused to do so until the government grants their demands. It is officially declared that the mutiny is entirely without political character and is looked upon merely as an effort of the sailors to enforce certain demands for concession from their officers.

British Subjects in Danger.

Rio de Janeiro, Nov. 24.—The British minister today notified the Brazilian government that any attempt to destroy the mutineers' war vessels with torpedoes would involve the safety of British subjects on board.

Rio de Janeiro, Nov. 24.—About ten o'clock on the night of November 22nd, as Capt. Neves, commanding the battleship Minas Geraes, came back from dinner on board the French training ship Duguay Trouin, he heard a violent uproar and shots. It was from his vessel, in revolt. Capt. Neves, who with two other officers offered resistance to some of the sailors, was killed and one of the other officers mortally wounded. The mutinous crew meanwhile shouted "Long live liberty."

The insurrectionary movement then broke out on board the other new Brazilian dreadnoughts the battleship Sao Paulo and the scout ship Bahia. All the officers having been landed, a plain sailor of the first class named Jean Candido took command of the squadrons.

Ammunition was provided, provisions were requisitioned, and a coal depot on the Isle of Vilana was seized. Vessels were prevented from

transporting coal destined for the French steamer Atlantique and the English ship Orontea.

Rio Janeiro, Nov. 24.—The chamber of deputies closed its meeting and adjourned until tomorrow with the question of an amnesty for the mutineers still under discussion. It is thought that the amnesty will be granted by a small majority. The Sao Paulo and Bahia have gone outside of the harbor, but the Minas Geraes has taken up a position in the bay opposite the Government Palace.

STRUCK BY YARD ENGINE.

Foreman of Section Gang Fatally Injured at Sault Ste. Marie.

Sault Ste. Marie, Ont., Nov. 24.—Wm. Jukes, forty years of age, a married man, foreman of a section gang, was seriously and probably fatally injured at noon today in the C.P.R. yard, being struck by a yard engine. Six of his ribs were broken, and other grave internal injuries inflicted. He is lying at the General Hospital.

The Famous Rayo

Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil light has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay \$5, \$10, or \$20 for some other lamp, and although you get a more costly lamp, you can't get a better light than the white, mellow, diffused, unflattering light of the low-priced Rayo.

Has a strong, durable shade-holder. This season's burner adds to the strength and appearance. Made of solid brass, nickel-plated, and easily polished.
